jöppli

Autonomous, on-demand recycling logistics for Switzerland

Color Palette

A balanced palette combining energy, clarity and stability. Designed to create a modern and confident visual language.

A color system inspired by sustainability and circular thinking — green for renewal, blue for responsibility, and bold accents to signal action.

	HEX	RGB	C	M	Y	K

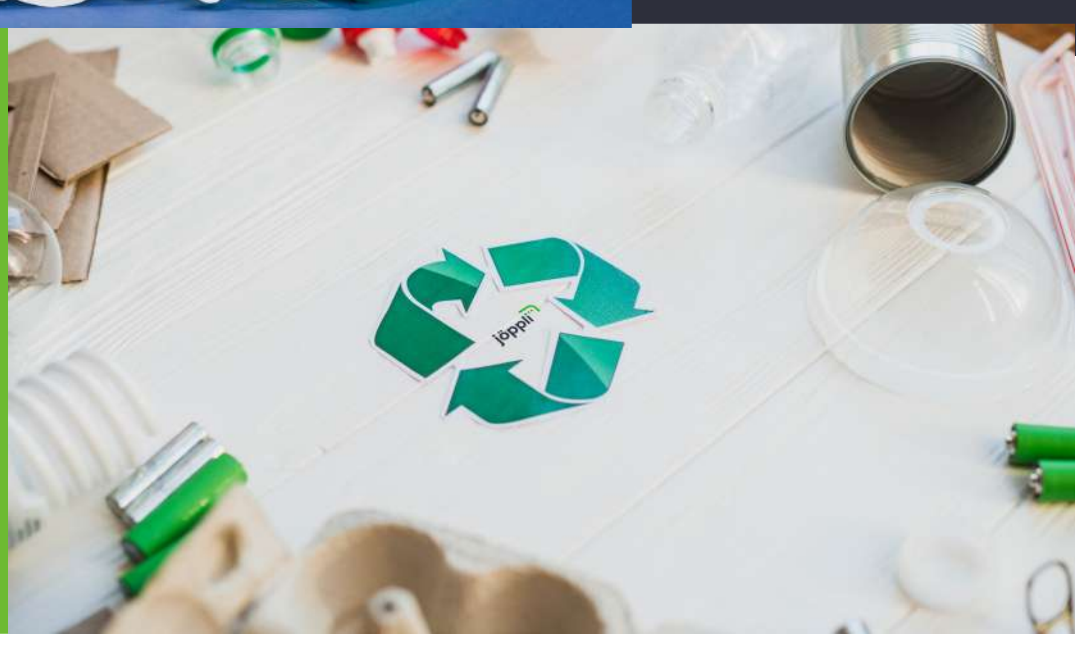
Art Direction

jöppli visual language presents sustainability as an effortless part of modern living. The art direction focuses on clean compositions, natural light, and real-life moments that communicate trust, efficiency, and quiet innovation.

Inspired by Swiss design principles, the visual world remains minimal, structured, and human-centered while showcasing technology as a seamless background

Less waste.
More future.



Logo Guidelines

A modern, flexible logo system designed for clarity, consistency, and recognizability across all platforms.

Primary Logo
Light Background Usage

On light backgrounds, the logo should be used in a high-contrast version to ensure maximum clarity and legibility.
The preferred option is the dark logo placed on a light surface.

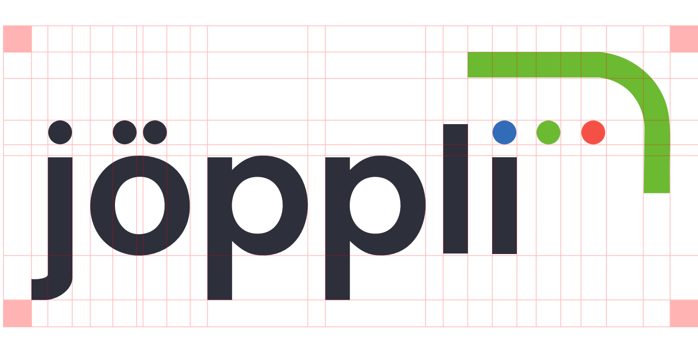
Secondary Logo
Dark Background Usage

When placed on dark backgrounds, the logo must appear in its light or inverted version to maintain visibility and readability.

Colored Background Usage

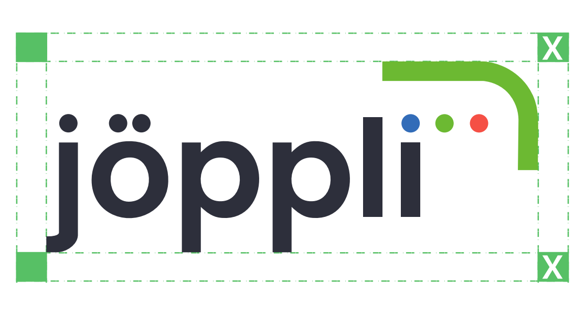
On colored backgrounds, the logo should be applied in a way that preserves contrast and aligns with the brand color palette.
If legibility is compromised, an alternative logo version should be used.

Logo Construction



The grid system is for visual reference only and does not represent a mathematical construction.
The logo has been optically adjusted for visual balance.

Clear Space



A minimum clear space equal to the height of the letter "x" must be maintained around the logo.

Icon App Logo

Icon App Logo

The primary app icon should be used on light interfaces and default mobile app environments. This version maintains full brand colors and is the preferred icon representation.

Alternative App Icon

The alternative icon version is designed for use on dark interfaces or when higher contrast is required.
This version ensures strong visibility while preserving brand recognition.

LinkedIn Icon

The alternative icon version is designed for use on dark interfaces or when higher contrast is required.
This version ensures strong visibility while preserving brand recognition.

Instagram Icon

The alternative icon version is designed for use on dark interfaces or when higher contrast is required.
This version ensures strong visibility while preserving brand recognition.

Incorrect Logo Usage

Don't

The logo must not be stretched or distorted in any direction.Always scale the logo proportionally to preserve its original form.

Don't

Drop shadows, glows, or any visual effects must not be applied to the logo. The logo should remain clean and flat at all times.

Don't

The logo must not be rotated or angled. It should always appear in its original horizontal orientation.

Don't

The logo colors must not be altered. Only the approved brand color versions may be used.

Any usage not specified in these guidelines requires prior approval.

Brand Voice

The jöppli brand voice reflects clarity, efficiency, and trust. Communication should be simple, direct, and easy to understand while maintaining a professional and approachable tone
